

REMARKS

The present application includes claims 1-20. Claims 1-20 were rejected by the Examiner under 35 U.S.C. 102(e) in view of Jensen et al. (U.S. Patent No. 6,814,489). However, both Jensen and the present application share common ownership and assignment. That is, both Jensen and the present application are assigned to GE Medical Systems Global Technology Company, LLC. Both the application and patent were assigned or under obligation to be assigned at the time of invention. Therefore, Jensen should not apply as prior art to the present application under 102(e).

Since Jensen is not available as prior art, the Applicant respectfully submits that the pending claims of the present application constitute subject matter allowable over the art of record and request action to that effect.

CONCLUSION

The Applicants submit that the present application is in condition for allowance. If the Examiner has any questions or the Applicants can be of any assistance, the Examiner is invited and encouraged to contact the Applicants at the number below.

The Commissioner is authorized to charge any additional fees or credit overpayment to the Deposit Account of GTC, Account No. 070845.

Respectfully submitted,
